The following are some of Photoshop's best plugins. The best plugin for a particular function will be the one that is most often used. I've selected the best plugins in the two categories: General plugins and Layer plugins. Category: General Best Photoshop plugins GIMP is by far the most popular free open-source photo editor available. It's just the right balance of control and ease of use. Its main downside is its lack of support for modern editing techniques, but if you're a beginner looking to get started, or if you're just passionate about what you do, GIMP will be all you need. SketchFX is a powerful free plugin that offers a very similar feature set to Photoshop's pen tool. This plugin has over 200 brushes, textures, and vectors. SketchFX provides a simple interface, making it easy to work with these assets. After installation, simply click and drag the tool where you want it to be or click and drag from the menu bar. SketchFX has many other features, such as: layer masking, crop, perspective control, desaturation, and adjustment layers. The interface is pretty straight-forward, though it's not too intuitive. For example, I had a hard time understanding where the tool was on the menu. Being a free plugin, SketchFX does have limits. There's no file import, no undo or redo, and no direct export to other software, and it can't handle all Photoshop plugins. However, SketchFX has a massive library of assets, and it's an excellent way to start learning Photoshop brushes. This isn't a straight-forward plugin, but it is a must have if you're looking for a clean image editing tool that you don't have to learn. iPad screenshots, photos, and slideshows all look better using PhotoScreener, which is one of Photoshop's best plugins. PhotoScreener is a screenshot plugin for the iPad and it works with all versions of Photoshop. It comes with a live preview feature that's always visible in the bottom right corner of the screen. You can change the display and even zoom in/out with your finger. It's a Photoshop plugin, which means you get full access to 388ed7b0c7

Whistle stop train campaigning in Camden Before the election for the London Assembly was announced, I wrote two articles for the Camden Post about the political process in Camden. Both articles are now available to read at Camden Reference Library Jul 16th 2014 5.40pm - 8.14pm Whistle Stop Trains The campaign for the London Assembly decided to have one of their own. A whistle stop train ran every Saturday and Sunday from Hampstead to the Angel, going through the main political and commercial centres in Camden. As well as the main commentary on the campaign in print, website, radio and television, the event was filmed by a local BBC crew who have produced two short videos to advertise the campaign for the London Assembly candidates. From the train, the candidates and supporters will travel to the V&A Museum to canvass the Camden constituency. Benedict Cumberbatch has directed a scene featuring a cameo from his Sherlock co-star, Martin Freeman, in his new movie, The Imitation Game. Freeman, who plays codebreaker Alan Turing in Pride, which opens nationwide on Friday, plays a man with access to classified information, who is approached by Cumberbatch's character. "Martin Freeman is a great actor, and seeing him is fun," Cumberbatch said. "We had been friends for a while and we did some things together in the past, and it was fun to put him on the other side of the table and just let him be a bit of a genius." Pride, directed by Moore, made headlines when it was announced that Cumberbatch's co-star would play Turing, rather than a homosexual role written for a man, which Moore has said led to the role being recast for a male actor. The writers have cited Cumberbatch's refusal to appear in the film, in a crucial role, as their reason for keeping Turing a man. "I was furious with them for changing it, but I've learned to live with it," Cumberbatch said. "I was able to make a donation, I was able to give some money, and I didn't really want to [be in the film]," he added. "But I had to talk to them, and they were concerned about the donation being negatively affected, so it wasn't completely down to my lack of commitment.
